## PROJECTS

PROJECT 1:

### GYM WEBSITE

- "Developed a modern Portfolio Gym website using HTML, CSS, React.js, Bootstrap, and JSON-Server. Implemented dynamic features, interactive UI components, and RESTful API integration to provide a seamless user experience."

PROJECT 2:

### Aussies Buckets

- Designed and developed a visually appealing and Responsive website for Aussies Buckets using HTML, CSS, JavaScript, React.js. Redux-Toolkits, TailwindCss and JSON Server with Deploying the Database. using Render. The project showcased a clean and professional layout, interactive product display features, and a user-friendly interface to effectively represent the brand's industrial theme and enhance customer engagement.

PROJECT 3:

### Figma Creative Website

- "Created a Responsive and visually appealing Figma website using HTML CSS and JavaScript. Emphasized modern design principles, seamless navigation, and professional presentation of content with Mobile Screens and Laptop Screens with Hamburgs."

PROJECT 4:

### Todo-List

- Developed a dynamic To-Do List application using Context API, useReducer, and Redux Toolkit to manage global state as well with useRef efficiently. Implemented features like task creation, editing, deletion, and filtering with a responsive UI for seamless user experience.
